Forward Air Corporation Reports Second Quarter 2009 Results

GREENEVILLE, Tenn.--(BUSINESS WIRE)--July 20, 2009--Forward Air Corporation (NASDAQ:FWRD) today reported revenue, operating income, net income and diluted earnings per share for the second quarter and six months ended June 30, 2009.

Operating revenue for the quarter ended June 30, 2009 decreased 18.0% to \$99.7 million from \$121.6 million for the same quarter in 2008. Income from operations was \$4.9 million, compared with \$20.3 million in the prior-year quarter. As a percent of operating revenue, income from operations decreased to 4.9% from 16.7% for the same quarter last year. Net income during the period decreased to \$2.8 million from \$12.1 million in the prior-year quarter. Income per diluted share from operations for the second quarter of 2009 was \$0.10 compared with \$0.42 in the prior-year quarter.

Operating revenue for the six months ended June 30, 2009 decreased 14.5% to \$196.3 million from \$229.5 million for the same period in 2008. Results from operations, which includes a first quarter non-cash, pre-tax charge of \$7.2 million primarily for goodwill impairment related to the Company's Forward Air Solutions segment, was a loss of \$0.2 million, compared with income from operations of \$36.9 million in the prior-year period. Including the impact of the goodwill impairment, the Company's net loss for the six months ended June 30, 2009, was \$0.3 million, compared with net income of \$22.1 million in the prior-year period. Net loss per share for the first six months of 2009 was \$0.01 compared with net income per diluted share of \$0.76 in the prior-year period.

Bruce A. Campbell, Chairman, President, and CEO, said "As expected, the challenging freight environment resulting from the global economic recession persisted throughout the second quarter. However, during the quarter, volumes in our core airport-to-airport business showed signs of stabilization. Our second quarter tonnage declined on a year-over-year basis but slightly less than the decline we experienced in the first quarter. During the quarter, our yield was severely impacted by the intense pricing pressure which began for us near the end of the first quarter as well as a difficult prior year fuel surcharge comparison."

Commenting further, Mr. Campbell said, "During this severe economic downturn, our goal, in our airport to airport operations, has been and continues to be aggressive and effective management of our expenses to the current business levels without jeopardizing the superior earnings power of the model. Thus far, we have been successful in that regard while generating respectable profits and cash flows given the conditions."

In closing Mr. Campbell said, "During the quarter, we were most encouraged by the performance of our Forward Air Solutions team. On the strength of nearly \$13 million of annualized new business brought on during the quarter as well as significant overhead reductions, Solutions returned to profitability in the month of June. With our current cost structure and assuming consistent business levels, Solutions should be a bottom line contributor for the balance of the year."

Commenting further on the quarter, Rodney L. Bell, Senior Vice President and CFO said, "During the quarter, we generated \$4.9 million of cash flow from operations compared to \$6.3 million in the second quarter of 2008 and ended the period with over \$24 million in cash. We used approximately \$10 million of cash to fund the construction of our Dallas regional hub which opened in late June. This state of the art facility will house both our airport-to-airport and pool distribution operations, as well as our back-up data center. This allows for the consolidation of multiple Dallas facilities which will reduce leasehold expense and drive operational efficiency. With the exception of approximately \$4 million of final payments on our Dallas facility, we expect our capital expenditures for the balance of the year to be minimal allowing for debt reduction or the further accumulation of cash. Consistent with the end of the first quarter, we owed \$50 million on our line of credit with \$39.5 million of availability."

Commenting further Mr. Bell said, "Assuming no further material deterioration in the environment, for the third quarter of 2009, we anticipate a year-over-year decline in revenue in the range of 15 to 20% and expect income per diluted share to be between \$0.08 and \$0.14 per share."

Review of Financial Results

Forward Air will hold a conference call to discuss first quarter 2009 results on Tuesday, July 21, 2009 at 9:00 a.m. EDT. The Company's conference call will be available online at www.forwardair.com or by dialing 800-841-9385. A replay of the conference call will be available at www.forwardair.com beginning shortly after completion of the live call.

About Forward Air Corporation:

Forward Air Corporation operates two business segments, Forward Air, Inc. and Forward Air Solutions, Inc.

Forward Air, Inc. is a high-service-level contractor to the air cargo industry providing time-definite ground transportation services through a network of 84 terminals located on or near major airports in the United States and Canada. It provides these services as a cost-effective alternative to air transportation of cargo that must be delivered at a specific time but is relatively less time-sensitive than traditional air freight or when air transportation is not economical.

Forward Air Solutions, Inc. is a provider of pool distribution services. Pool distribution involves the consolidation and shipment of several smaller less-than-truckload shipments to a common area or region. Once at the regional destination, the loads are deconsolidated, then grouped with other shipments with common delivery points, and delivered in a very precise, time-sensitive manner. Our pool distribution network consists of 19 terminals within the mid-Atlantic, Southeast, Midwest and Southwestern United States.

Important Information

This press release contains "forward-looking statements," as defined in Section 27A of the Securities Act of 1934, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are statements other than historical information or statements of current condition and relate to future events or our future financial performance. Some forward-looking statements may be identified by use of such terms as "believes," "anticipates," "intends," "plans," "estimates," "projects" or "expects." Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The following is a list of factors, among others, that could cause actual results to differ materially from those contemplated by the forward-looking statements: economic factors such as recessions, inflation, higher interest rates and downturns in customer business cycles, our inability to maintain our historical growth rate because of a decreased volume of freight moving through our network or decreased average revenue per pound of freight moving through our network, increasing competition and pricing pressure, surplus inventories, loss of a major customer, the creditworthiness of our customers and their ability to pay for services rendered, our ability to secure terminal facilities in desirable locations at reasonable rates, the inability of our information systems to handle an increased volume of freight moving through our network, changes in fuel prices, claims for property damage, personal injuries or workers' compensation, employment matters including rising health care costs, enforcement of and changes in governmental regulations, environmental and tax matters, the handling of hazardous materials, the availability and compensation of qualified independent owner-operators and freight handlers
