NEWS RELEASE

FORWARD AIR CORPORATION REPORTS THIRD QUARTER 2023 RESULTS

Strong momentum in LTL volumes

Growth with LTL freight forwarders and direct shippers

Continued weak demand for intermodal and truckload brokerage services

GREENEVILLE, Tenn.- (BUSINESS WIRE) - October 30, 2023 - Forward Air Corporation (NASDAQ:FWRD) (the "Company", "we", "our", or "us") today reported financial results for the three and nine months ended September 30, 2023 as presented in the tables below.

Tom Schmitt, Chairman, President and CEO, commenting on third quarter results said, "Precision execution of our revenue growth strategies led to positive volume trends and improved freight quality metrics. In the first weeks of the fourth quarter, we have seen continued momentum with +6% pounds per day growth over the same period in the prior year. In addition to the growth of our LTL volumes, our third quarter of 2023 weight per shipment increased +8% over the same period in the prior year. After a sluggish start to the third quarter, our LTL line of business achieved an operating ratio of approximately 85.5% for September 2023, a sequential improvement of 80 basis points from June 2023."

Mr. Schmitt continued, "We are growing with both our domestic freight forwarder and direct shipper customers. Subsequent to the announcement of our proposed acquisition of Omni Logistics on August 10, our average daily volumes with domestic freight forwarders increased by more than 14%. In addition, we grew our LTL direct shipper customer count by more than 33% from third quarter of 2022 to third quarter of 2023 to over 240 direct shipper customers. We are winning market share with the direct shipper customer who does not use a domestic freight forwarder. A key focus area has been the expansion of our door-to-door solution. We built a commercial team dedicated to working closely with customers on selecting, pricing and handling freight, and we added new terminals in 2023 that were strategically located in markets closer to current and future customers. In the third quarter of 2023, our door-to-door revenue increased 12% over the same period in the prior year. We believe our service, being the best in the LTL industry in damage-free, intact, on-time shipments, continues to make us the most compelling choice for customers with high value freight needs."

In closing, Mr. Schmitt said, "Over the next few weeks, we are excited to share the next phase of the Grow Forward revenue strategy that includes a further enhanced LTL focus. Also, to ensure corporate clarity, we are accelerating our strategic portfolio review."

Regarding the third quarter results, Rebecca J. Garbrick, CFO, said, "Market demand continues to be challenged for our intermodal and truckload brokerage services as both lines of business are navigating an extended weak freight environment. Softer demand for our intermodal and truckload brokerage services combined with a decrease in the price of diesel over the same period in the prior year resulted in a 19% decline in revenues on a consolidated basis, and reported net income per diluted share of \$0.36 and adjusted net income per diluted share of \$0.99."

Ms. Garbrick continued, regarding fourth quarter of 2023 guidance, "We expect our year-over-year revenue to decline 7% to 17% and adjusted net income per diluted share in the range of \$0.98 to \$1.02, compared to reported net income per diluted share of \$1.60 and adjusted net income per diluted share of \$1.65 in the fourth quarter of 2022."

Forward Air Corporation Reconciliation of Non-GAAP Financial Measures

In this press release, the Company uses non-GAAP financial measures that are derived on the basis of methodologies other than in accordance with GAAP. The Company believes that meaningful analysis of its financial performance requires an understanding of the factors underlying that performance, including an understanding of items that are non-operational. Management uses these non-GAAP financial measures in making financial, operating, compensation and planning decisions as well as evaluating the Company's performance.

For the three and nine months ended September 30, 2023 and 2022, this press release contains the following non-GAAP financial measures: earnings before interest, taxes, depreciation and amortization ("EBITDA"), free cash flow, adjusted income from operations, adjusted net income, and adjusted net income per diluted share.

The Company believes that EBITDA improves comparability from period to period by removing the impact of its capital structure (interest and financing expenses), asset base (depreciation and amortization) and tax impacts. The Company believes that free cash flow is an important measure of its ability to repay maturing debt or fund other uses of capital that it believes will enhance shareholder value. The Company believes providing adjusted income from operations, net income and net income per share allows investors to compare Company performance consistently over various periods without regard to the impact of unusual, nonrecurring or nonoperational items.

Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the Company's financial results prepared in accordance with GAAP. Non-GAAP financial information does not represent a comprehensive basis of accounting. As required by the Securities and Exchange Act of 1933 and the rules and regulations promulgated thereunder, the Company has included, for the periods indicated, a reconciliation of the non-GAAP financial measure to the most directly comparable GAAP financial measure.

Due to the forward-looking nature of the fourth quarter 2023 guidance for adjusted net income per diluted share, the Company is unable to reconcile this non-GAAP measure to the most directly comparable GAAP measure because the comparable GAAP measure is not reasonably accessible or reliable due to the inherent difficulty in forecasting and quantifying measures that would be required for such reconciliation.
